Cambridge O Level Principles of Accounts has been designed specifically to meet the requirements of the Cambridge syllabus. Cambridge O Level Principles of Accounts has been written specifically for the Cambridge O Level Accounting syllabus. Accounting principles and practices have been explained in simple language to enhance the accessibility of the contents to students whose first language is not English. The book reflects the changes in the O Level Principles of Accounts syllabus and applies international accounting terminology.

Written for the A Level accounting syllabus, this text is on the reading lists of the AEB and the Oxford and Cambridge GCE Advanced Level examining boards. It has been updated in line with syllabus requirements and includes material on sensitivity analysis. It also includes multi-choice questions.

An updated edition to cover the requirements of the 2000 A Level specifications. This book is also useful as an introduction to professional accounting courses. Numerous examples and exercises.

Written for the IGCSE and O Level syllabus. This new text book, endorsed by Cambridge, has been written as per specification for the Cambridge IGCSE and O Level syllabuses. Accounting principles and practices have been explained in simple language and lucid style to enhance the accessibility of the content to students whose first language is not English.

It's been three months since Rob's younger sister, Chloe, fell into a coma after a riding accident, and his life is in disarray. Rob's parents spend most of their time at his sister's bedside, and his best friend is afraid to talk to Rob about Chloe. To distract himself, Rob takes a job working at a secret archaeological site, where workers have uncovered a mystical ring of black timbers. At its center an ancient tree is buried upside down in the earth—a tree with the power to transport Rob to the Unworld, where Chloe lives in a forest of enchanting dreams, trapped between life and death. Catherine Fisher has combined a fascinating exploration of myth with a modern quest for understanding. Where is the land of the imagination? And if we found our way there, would we ever want to come back?

Suitable for one-year AS Level courses and for two-year A Level courses, Accounting: AS Level and A Level helps develop the required computational, accounting, problem-solving and written skills. Theoretical and practical aspects of all topics are covered, with teaching points being illustrated by fully worked examples and exercises to test students understanding. The Teacher's Supplement contains the answers to the end-of-chapter additional exercises included in the Coursebook. Click on 'Samples and Resources' to view the answers for each chapter, which can be downloaded and printed off separately.

'New GCSE Maths' student books are the perfect way to help students working at Grades G to C tackle the 2010 Edexcel GCSE Maths specification. Packed with functional skills, problem solving and graded maths practice, it will give your students the confidence to take on all aspects of the new curriculum in their exams and own lives.

This popular introduction to accounting has been updated to reflect the new AQA and OCR specifications. It tackles this complex and sometimes confusing subject in a straightforward manner, using simple, uncomplicated language throughout. Each chapter consists of clear, useful guidance on the topic, interspersed with numerous exercises, ensuring that users gain practice as they go along and build their confidence in dealing with accounts. Worked examples are provided throughout each chapter so that students can check their technique as they work through exercises. - Written in extremely clear and straightforward language - Author Ian Harrison is Chief Examiner for a major examination board - Filled with exercises to boost confidence in dealing with accounts - Full colour and uncluttered layout - Chapter summaries highlight key points to aid revision - Examination tips are given as chapters progress
