mental institute who believed it could be used to treat mental illness.

ACID: A New Secret History of LSD by David Black

His account of the development of lysergic acid diethylamide, Acid: The Secret History of LSD, is a study in what he calls "narco-capitalism". He describes the involvement of the Central Intelligence Agency in mind-control trials and suggests that LSD was used by undercover secret service agents in Britain and the USA to infiltrate the radical youth movements of the 1960s.
