BOATsmart! has collected 7307 reviews with an average score of 4.43. There are 6503 customers that BOATsmart!, rating them as excellent.

The #1 New York Times-best-selling story about American Olympic triumph in Nazi Germany and now the inspiration for the PBS documentary "The Boys of '36.'" For readers of Unbroken, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man's personal quest.

Complete MathSmart provides plenty of interesting and systematic practice for developing and improving children's math skills. Through Complete MathSmart, children not only understand the concepts better and master the necessary skills, but they will also be able to apply them in solving math problems in real-life situations.

Here, for the first time, Christopher Kul-Want brings together twenty-five texts on art written by twenty philosophers. Covering the Enlightenment to postmodernism, these essays draw on Continental philosophy and aesthetics, the Marxist intellectual tradition, and psychoanalytic theory, and each is accompanied by an overview and interpretation. The volume features Martin Heidegger on Van Gogh's shoes and the meaning of the Greek temple; Georges Bataille on Salvador Dalí's The Lugubrious Game; Theodor W. Adorno on capitalism and collage; Walter Benjamin and Roland Barthes on the uncanny nature of photography; Sigmund Freud on Leonardo Da Vinci and his interpreters; Jacques Lacan and Julia Kristeva on the paintings of Holbein; Freud's postmodern critic, Gilles Deleuze on the visceral paintings of Francis Bacon; and Giorgio Agamben on the twin traditions of the Duchampian ready-made and Pop Art. Kul-Want elucidates these texts with essays on aesthetics, from Hegel and Nietzsche to Badiou and Rancière, demonstrating how philosophy adopted a new orientation toward aesthetic experience and subjectivity in the wake of Kant's powerful legacy.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?

Designed for undergraduate courses in advanced calculus and real analysis, this book is an easily readable, intimidation-free advanced calculus textbook. Ideas and methods of proof build upon each other and are explained thoroughly.
