~~This book is called, "Alexandria Ocasio-Cortez Wants to Stop Cows from Farting." That title is not a joke. Ocasio-Cortez really does want to stop cows from farting. She said so on her official Congressional website, as well as in a document which she gave to NPR. This book is not a joke book. Instead, it presents a serious discussion of Ocasio-Cortez's policy proposals. In July 2018, DNC Chairman Tom Perez said that Ocasio-Cortez "represents the future of our party." This book shows you that future by quoting Ocasio-Cortez in her own words. The book's author also presents his own opinions about Ocasio-Cortez's policy proposals. Here are the chapter titles to give you an idea of what's in the book! ~~Climate change: watershed or endgame? In this compelling new book, Noam Chomsky, the world's leading public intellectual, and Robert Pollin, a renowned progressive economist, map out the catastrophic consequences of unchecked climate change—and present a realistic blueprint for change: the Green New Deal. Together, Chomsky and Pollin show how the forecasts for a hotter planet strain the imagination: vast stretches of the Earth will become uninhabitable, plagued by extreme weather, drought, rising seas, and crop failure. Arguing against the misplaced fear of economic disaster and unemployment arising from the transition to a green economy, they show how this bogus concern encourages climate denialism. Humanity must stop burning fossil fuels within the next thirty years and do so in a way that improves living standards and opportunities for working people. This is the goal of the Green New Deal and, as the authors make clear, it is entirely feasible. Climate change is an emergency that cannot be ignored. This book shows how it can be overcome both politically and economically.~~

~~A magnificently researched, dramatically told work of narrative nonfiction about the history, evolution, impact, and ultimate demise of what was known in the 1930s and 1940s as President Franklin Delano Roosevelt's Black Cabinet. In the early 20th century, most African Americans still lived in the South, disenfranchised, impoverished, terrorized by white violence, and denied the basic rights of citizenship. As the Democrats swept into the White House on a wave of black defectors from the Party of Lincoln, a group of African American intellectuals—legal minds, social scientists, media folk—sought to get the community's needs on the table. This would become the Black Cabinet, a group of African American racial affairs experts working throughout the New Deal, forming an unofficial advisory council to lobby the President. But with the white Southern vote so important to the fortunes of the Party, the path would be far from smooth. Most prominent in the Black Cabinet were Mary McLeod Bethune, an educator close to Eleanor Roosevelt, and her "boys": Robert Weaver, a Harvard-educated economist who pioneered enforcement standards for federal anti-discrimination guidelines (and, years later, the first African American Cabinet secretary); Bill Hastie, a lawyer who would become a federal appellate judge; Al Smith, head of the largest black jobs program in the New Deal at the WPA; and Robert Vann, a newspaper publisher whose unstinting reporting on the administration's shortcomings would keep his erstwhile colleagues honest. Ralph Bunche, Walter White of the NAACP, A. Philip Randolph, and others are part of the story as well. But the Black Cabinet was never officially recognized by FDR, and with the demise of the New Deal, it disappeared from history. Jill Watts's The Black Cabinet is a dramatic full-scale examination of a forgotten moment that speaks directly to our own.~~

~~This book takes a sweeping view of the ways we build things, beginning at the scale of products and interiors, to that of regions and global systems. In doing so, it answers questions on how we effect and are affected by our environment and explores how components of what we make—from products, buildings, and cities—are interrelated, and why designers and planners must consider these connections.~~
