The Top 100 — Close-up Photographer of the Year
Close-Up Photography by Michael Freeman This book is more of a survey than a definitive guide. There are discussions on specific subjects, composition, depth of field, exposure, and lighting. All of these are axiomatic once you look at your photographs.

Digital Photography Expert: Close-Up Photography: The ...
Indeed the title of this book is "Digital Photography Expert Close-up Photography", and the cover states that it is the "definitive guide for serious digital photographers". And yet there is not a single mention of what I consider to be the most useful tool offered by digital cameras, a histogram of light values to aid you in calculating exposure.
