Get this from a library! Complete cello technique : the classic treatise on cello theory and practice. [Diran Alexanian; Pablo Casals; David Geber]

Bohuslav Martinu (1890-1959) was one of the most prolific composers in the 20th century. Despite the fact that he lived for several years in the United States and had many of his works premiered in this country, he still stands as an enigma. This collection of essays by an international group of experts, is dedicated to the memory of Michael Henderson, who died in 1994 at the age of 47. Henderson was in the process of writing a biography of the composer. These essays include a range of new approaches to Martinu: Judy Mabary gives a concise history of Martinu's collaboration with choreographer Eric Hawkins, *The Strangler*; Ales Brezina looks penetratingly at the often tortured relationship between Martinu and the Czechoslovak government; and Michael Beckerman explores questions of construction in Martinu's Piano Concerto No. 2. Shorter pieces by Czech scholars Isa Popelka and Jaroslav Mihule are also included. In addition, there will be an essay by Michael Henderson on "Martinu's Mysterious Accident" which will shed light on one of the most harrowing events in the composer's life.

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

This monumental 1995 treatise by the late Professor G. N. Watson will be indispensable to mathematicians and physicists.
