James Siegel, Derailed (Warner, 2003) I saw the 2005 film version of Derailed a while back, and was unimpressed, to put it kindly. When a friend of mine lent me this novel a couple of months ago, I didn't put two and two together until reading the jacket copy.

Derailed by James Siegel - Goodreads

James Siegel - Derailed. Sandwiched between the front cover "blurbs" of Lee Child and James Patterson, the back cover "blurb" of Nelson Demille, lies the pages of a most amazing thriller/suspense story. Up until the moment, Charles Schine meets the alluring Lucinda Harris, on the New York commuter train, his life is one of comfortable, steadfast routine. From that moment, his life is plunged ...

Derailed Audible Audiobook – Abridged James Siegel (Author), Gregory Harrison (Narrator), Hachette Audio (Publisher) & 0 more 4.2 out of 5 stars 180 ratings

This New York Times–bestselling novel “ of a middle-class professional whose life goes incredibly, criminally awry is one of the most exciting thrillers in years ” (Publishers Weekly, starred review). Stressed out and late for work, advertising executive Charles Schine is having a terrible morning—until he meets the seductive, mysterious Lucinda Harris on his morning train. Charles isn ' t normally the sort to have an affair, but he ' ll never forget his forbidden tryst with Lucinda. Because it ' s about to destroy his life. When a sudden, brutal attack is compounded by blackmail, Charles has nowhere left to turn but the shadowy underworld of thugs, criminals and con artists. James Siegel ' s acclaimed tale of murder, betrayal, and revenge is the basis for the film starring Jennifer Aniston and Clive Owen. “ Riveting...spectacularly inventive . . . a shocker. ” —Washington Post

Following a string of clues, William Riskin investigates the mysterious disappearance of numerous people. As he uncovers his partner's part in these crimes, he comes face to face with the ultimate evil.

How far would you go for someone you love? Would you sacrifice your beliefs? Would you commit a federal crime? Would you risk everything you have? James Siegel's electrifying thriller, *Derailed*, captivated readers with its emotionally charged twists and turns, racing up national bestseller lists and landing a major motion picture deal. The Washington Post called it "spectacularly inventive," and James Patterson raved, "James Siegel has arrived in high style." Now this acclaimed new master of suspense returns with the explosive story of a mother's love, a father's devotion-and an adopted daughter who turns their lives upside down. They want what every young couple wants: a child of their own. But Paul and Joanna Breidbart have been trying to conceive for five long years-a torturous process of failed medical procedures that nearly tore their marriage apart. When they finally decide to adopt, American agencies tell them they will have to wait years for their dream to come true. The couple agrees to fly to war-torn Colombia to adopt a baby girl. Paul knows all about risks. As an insurance executive, he routinely calculates the odds of dying in a plane crash or being hit by a bus. Yet all the accident statistics in the world can't prepare him for what is about to happen. Paul and Joanna receive the baby girl of their dreams and their world seems perfect. Then one afternoon they briefly leave their baby daughter alone with their new nanny. When they return, something is disturbingly different about their child...and suddenly everything Paul values is in jeopardy. Again, James Siegel gives us a tale of ordinary men and women thrust into extraordinary circumstances-and a novel that confirms him as one of today's most powerful writers of psychological suspense.

"The more he discovers, the closer he gets to the heart of a conspiracy that threatens to destroy him. From a seedy after-hours bar in L.A. to a remote cabin in the woods to the dark corridors of a psychiatric ward, Valle is desperately seeking redemption in the truth."--Jacket.

A kidnapped girl survived twelve nightmarish years. Now she's safely back home . . . or is she? Jenny Kristal was six years old when she was snatched off the sidewalk from her quiet suburban neighborhood. Twelve years later, she's miraculously returned home after escaping her kidnappers--but as her parents and older brother welcome her back, the questions begin to mount. Where has she been all these years? Why is she back now? And is home really the safest place for her . . . or for any of them? "Fantastically good--dark yet compellingly upbeat, and insanely suspenseful . . . Even the twists have twists."--Lee Child, #1 New York Times bestselling author "Dark, compulsive, full of OMG moments. If you think you know where it's going . . . YOU DON'T. This is one you won't forget in a hurry."--Lisa Jewell, New York Times bestselling author of *Then She Was Gone*

A hardcover bestseller now in paperback presents a management program that encourages employee leadership--which today's companies must have more of if they are to survive the coming decades.

Written by James Siegel, this omnibus edition contains two intense thrillers.

Whether it's poker or trial law, wisecracking Rita Morrone plays to win, especially when she takes on the defense of the Honorable Fiske Hamilton, a prominent federal judge accused of sexual harassment. And it's no coincidence that the judge is her live-in lover's father. Then the action turns deadly, and Rita finds herself at the center of a murder case. She probes deep into the murder, uncovering a secret life and suspects in shocking places. When the killer viciously ups the ante, Rita decides to end this lethal game. She lays it all on the line for the highest stakes ever—her life.

*Bhutanese Tales of the Yeti* is a collection of twenty-two stories set in four different regions of Bhutan. The presence of the yeti is ubiquitous to the kingdoms of the Himalayas, where beliefs and attitudes related to it go beyond scientific judgment and analysis. The Bhutanese consider the yeti, or the migo, to be an essential part of the backdrop of their existence. Believed to possess supernatural powers enabling it to become invisible at will, the yeti often manifests itself in a tangible form and then suddenly vanishes, leaving behind nothing but an unexpected void. Folklore about the abominable snowman has existed for centuries; however, with the far-reaching impact of the media, the perpetuation of this oral tradition is threatened. This collection of stories is an attempt to document a vital tradition before it is wiped out entirely. The book is well illustrated and includes maps of the four regions.

"The author of *In the Mind Fields* now gives us a comprehensive journalistic exploration of our culture's flagging ability to pay attention, infused with the personal struggles and insights of a woman coming to terms with the demands and distractions of the information age. The average American checks their phone 150 times a day, but we touch our phones about 2,617 times in those same hours. Casey Schwartz wants to understand this change in our lives that seemingly happened without our consent. From attention disorders and medications, mindfulness, psychedelics and creativity, to a brief history of distraction itself, Schwartz acts as our sympathetic and qualified guide. Both validating and galvanizing, *Attention* examines our lives ruled by distraction. Schwartz's personal attempt to revive her attention ("I'm in as deep as anyone, as splintered, dependent, and distracted. I am jittery and incomplete without my phone") and preserve her authentic life will resonate with readers who also find it very nearly impossible to avoid the pixelated siren call of our screens"--
