10. The force required to displace a spring a distance x from its free length is $F=kx$, where k is the spring constant or rate. In this case:
 $x = \text{free length} - \text{compressed length} = 190 \text{ mm} - 125 \text{ mm} = 65 \text{ mm}$
The force required to deflect the spring this amount is: $F = kx = (38.525 \text{ N/mm})(65 \text{ mm}) = 2,504 \text{ N}$.

Questions And Solutions
Book

else. This book contains full length practice exam with complete solutions based on latest NCEES Computer Based Testing (CBT) specification for FE Electrical and Computer Exam. By means of using this book, you will be able to:

- * Perform diagnostics of strengths and weaknesses*
- * Calibrate exam readiness
- * Fine-tune' study plan

The solutions are explained to assist students in developing familiarity with NCEES FE Reference Handbook which is the only allowed reference material during exam. Target audience of this book includes final year students, new graduates as well as seasoned professionals who have been out of school for a while. Please visit www.studyforfe.com to learn about the recently launched On-demand preparation course for Electrical and Computer Engineering portions of the latest NCEES FE Computer-based Testing specification

and it will allow you the flexibility to learn anytime, from anywhere at your own pace by learning from 80 lectures and quizzes.

The ONLY book with 3 full-length, 4-hour exams, plus 12 comprehensive reviews for the AM portion of the FE(EIT). Step-by-step explanations are presented. Knowledge of the first 90 semester credit hours of a typical engineering program are tested. Thorough reviews are provided for all areas tested on the FE, including the two new sections, Computers and Ethics. For engineering students who are pursuing an 'Engineer-in-Training' certification.

Many examinees find the electrical and computer engineering sections of the general FE exam to be most the most challenging. Now, you can get the extra review and practice you need to meet this

Download Free Fe Electrical Sample

challenge through a concise review of the electrical and computer topics covered on the general morning and afternoon FE exams. Supplement your electrical and computer engineering knowledge Over 100 multiple-choice problems, with solutions, just like the exam Over 150 solved example problems Over 225 key charts, graphs, tables, and figures Improve your confidence and problem-solving skills _____

Since 1975 more than 2 million people preparing for their engineering, surveying, architecture, LEED, interior design, and landscape architecture exams have entrusted their exam prep to PPI. For more information, visit us at www.ppi2pass.com.
