The NITRO is a dimmable fire-rated SMD LED downlight.

Fire-rated to 30, 60 and 90 minutes, it has an IP65 rating and a 4W SMD LED module that provides a light output of 500 lumens.

Bookmark File PDF Fire Rated Led Downlights Free

Compact in size but very powerful, the Nitro offers quick, screwless installation thanks to its four-way push fit terminal block.

~~Fire Rated LED Downlights +
Dimmable LED Down Lights ...~~

Fire-rated downlights are rated by minutes, for example, 30, 60, 90 and sometimes, 120 minutes. This rating refers to the amount

Bookmark File PDF Fire Rated Led Downlights Free

of time the fitting will
block the fire for. The
rating required usually
depends on the type of
building and the number of
floors.

Fire rated downlights are
used widely to restore a

Bookmark File PDF Fire Rated Led Downlights Free

ceiling's fire integrity.

This is linked to the fact that cutting a hole in a ceiling for a light can cause a fire hazard. Such a hole can allow fire to pass through it, meaning a fire could spread further than if

Bookmark File PDF Fire Rated Led Downlights Free

no such holes existed.

~~Ledlite — Fire Rated
Downlights~~

Fire rated downlighters help slow the spread of fire, compared to traditional downlights. When you cut a hole into a ceiling and

Bookmark File PDF Fire Rated Led Downlights Free

install recessed lights, you are reducing the existing fire rating of the ceiling. This hole then allows for fire to escape and spread more easily between floors.
