This engaging book explores some of the most significant films to emerge from Latin America since 2000, an extraordinary period of international recognition for the region's cinema. Each chapter assesses an individual film, with some contributors considering the reasons for the unprecedented commercial and critical successes of movies such as City of God, The Motorcycle Diaries, Y tu mam á tambi é n, and Nine Queens, while others examine why equally important films failed to break out on the international circuit. Written by leading specialists, the chapters not only offer textual analysis, but also trace the films' social context and production conditions, as well as critical national and transnational issues. Their well-rounded analyses provide a rich picture of the state of contemporary filmmaking in a range of Latin American countries. Nuanced and thought-provoking, the readings in this book will provide invaluable interpretations for students and scholars of Latin American film. Contributions by: Sarah Barrow, Nuala Finnegan, David William Foster, Miraim Haddu, Geoffrey Kantaris, Deborah Shaw, Lisa Shaw, Rob Stone, Else R. P. Vieira, and Claire Williams.

The Wind Traveler showcases the mesmerizing storytelling of Alonso Cueto at the top of his career. At the heart of his latest work is a seemingly ordinary man named Ángel, who sells kitchenware at a store in Lima. In the early 1990s, he had served as an army soldier, engaging in brutal acts whose aftermath still reverberates. He is forced to reckon with his past when a woman he was instructed to kill enters the store and buys a few items. How can she still be alive? What's more, how can she not recognize Ángel? Remarkably, she asks him to deliver her purchases to her house. From this moment, Ángel feels compelled to make amends through any means necessary, even if it requires sacrificing his life of quiet retirement. A stirring tribute to the wounded souls who yearn to make peace with the past, The Wind Traveler offers a new vision of the fragile human connections that sustain a deeply fractured world.

A beautiful and memorable look at some of the most gorgeous endangered places on the planet. Machu Picchu is a mesmerizing, ancient Incan city tucked away in the mountains of Peru, but it is rapidly being worn down by the thousands of feet treading across its stones. Glacier National Park is a destination long known for the stunning beauty of its ice floes, but in our lifetimes it will have no glaciers due to global warming. In the biobays of Puerto Rico swimmers can float in a sea shimmering with bioluminescent life, but sediment being churned up by development is killing the dinoflagellates that produce the eerie and beautiful glow. And in the Congo Basin of Africa, where great apes roam freely in lush, verdant rainforests, logging is quickly destroying the vast life-giving canopies. These places-along with many others across the globe-are changing as we speak due to global warming, environmental degradation, overuse, and natural causes. From the Boreal Forests in Finland to the Yangtze River Valley in China, 37 Places to See Before They Disappear is a treasure trove of geographic wonder, and a guide to these threatened destinations and what is being done to save them.

Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read-alikes with this detailed and expertly constructed guide.

A lost classic of Western herbalism—rediscovered and restored with 200 full-color images. Herbalist to King Charles I, John Parkinson (1567 – 1650) was a master apothecary, herbalist, and gardener. Famous in his own lifetime for his influential books, his magnum opus, the Theatrum Botanicum, was published in 1640 and ran to 1,766 large pages. The sheer scope and size was perhaps to prove the book ' s downfall, because while it was much revered—and plagiarized—it was never reprinted and, centuries later, has attained the status of an extremely rare and valuable book. Parkinson was writing at a time when Western herbalism was at its zenith, and his skills as a gardener (from his grounds in Covent Garden) combined perfectly with his passion for science, observation, and historical scholarship. In the The Herbalist ' s Bible, Julie Bruton-Seal and Matthew Seal have beautifully combined selections from Parkinson ' s book with their own modern commentary on how each plant is used today to create a truly one-of-a-kind, comprehensive collection of herbal information old and new. Parkinson ' s clear and lively description of a chosen plant ' s “ virtues ” or healing properties side-by-side with the editors ' notes—including copious herbal recipes—make this the perfect book for students and practitioners of herbalism, historians, and gardeners, all of whom will welcome this restoration of Parkinson ' s lost classic.
