Audio The Art
And The
Science Finper

It is filled with so much great stuff, and is really well written by someone who loves his craft, and has obviously mastered the art and the science of processing audio.

This book goes beyond the process of mastering, there is a lot of indispensable information about

[Mastering Audio: The
Art and ...](#)

The author knows his stuff. This is very clear. It is my opinion however, that the writer comes of as quite a bit of an audio snob. Also, he spends

Access Free Mastering

A significant amount of time discussing very high end and expensive mastering equipment. I think this book is more geared for audio professionals and not home studio / project studio owners.
