Rule #1: Test comprehension and critical thinking, not just recall. Multiple choice questions are criticized for testing the superficial recall of knowledge. You can go beyond this by asking learners to interpret facts, evaluate situations, explain cause and effect, make inferences, and predict results.

Read a multi-choice question in its entirety before glancing over the answer options. Students often think they know what a question is asking before reading it and jump straight to the most logical answer. This is a big mistake and can cost you dearly on multiple-choice exams. Read each question thoroughly before reviewing answer options.
