Sound is invisible  
waves moving

*Page 18/39*

# Download Free Physics Classroom

through the air around us. In the same way that ocean waves are made of ocean water, sound waves are made of the air (or water or whatever) they are moving through. When something vibrates, it disturbs the air molecules around it. The disturbance moves through the air

# Download Free Physics Clroom

Waves - each vibration making its own wave in the air - spreading out from the thing that made the sound, just as water waves spread out from a stone that's been dropped into a pond. This books explains acoustics (the physics of sound waves) as it relates to music and musical
