the author, a retired university professor, from when he was born in October 1941 during WW2 to when he went up to university in October 1961.

This engaging book sheds light on the ways in which adults in the twenty-first century interact with technology in different learning environments. Based on one of the first large-scale academic research projects in this area, the authors present their findings and offer practical recommendations for the use of new

technology in a learning society. They invite debate on: why ICTs are believed to be capable of affecting positive change in adult learning the drawbacks and limits of ICT in adult education what makes a lifelong learner the wider social, economic, cultural and political realities of the information age and the learning society. Adult Learning addresses key questions and provides a sound empirical foundation to the existing debate, highlighting the complex realities of the learning society and e-learning rhetoric. It tells the story of those who are excluded from the learning society, and offers a set of strong recommendations for practitioners, policy-makers, and politicians, as well as researchers and students.

boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Troubleshooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for
