A language of Indic origin heavily influenced by European idioms for many centuries now, Romani provides an interesting experimental field for students of language contact, linguistic minorities, standardization, and typology. Approaching the language via its ever-surfacing character as a language in contact, the volume gives expression to part of the wide range of research represented in today's field of Romani linguistics. Contributions focus on problems in typological change and structural borrowing, lexical borrowing and lexicial reconstruction, the Iranian influence on the language, interdialectal interference, language mixing, Romani influences on slang and argot, grammatical categories in discourse, standardization and literacy in a multilingual community, and plagiarism of data in older sources. The authors discuss dialects spoken in the Czech and Slovak Republics, Serbia, Macedonia, Germany, Poland, and Romania, as well as related varieties in Spain and the Middle East.

MATLAB is a high-performance technical computing language. It has an incredibly rich variety of functions and vast programming capabilities. SIMULINK is a software package for modeling, simulating, and analysing dynamic systems. MATLAB and SIMULINK are integrated and one can simulate, analyse, or revise the models in either environment. The book MATLAB and SIMULINK for Engineers aims to capture the beauty of these software and serve as a self study material for engineering students who would be required to use these software for varied courses.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term

mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

When Vipasha, Vee to friends, eighteen and single, makes the decision to have her baby, she does more than give up her promising modelling career. She ends up cutting ties with her family, and with Ankush, the man she thought she was in love with. Fast-forward sixteen years, and she now has two unusual careers: she runs a dog-boarding facility and is a gym instructor.

Of the lot, this man was still her best bet. He not only looked the most inebriated, but the most disreputable – lean and hungry and totally without principle. Once he was sober, he would no doubt be easy to buy. "Sister" Kerry Bishop got more than she bargained for when she entered the seedy bar seeking the services of a man, more particularly a mercenary. Linc O'Neal wasn't the soldier of fortune Kerry mistook him for...but he proved to be just as dangerous and twice as unscrupulous. Linc agrees to help Kerry rescue a group of children from a ruthless dictator, but his motivation is far from noble. If they survive what appears to be a suicide mission, he plans to take Kerry's promised fifty thousand dollars—in addition to her body—which she provocatively advertised in order to trick him, then withheld. With innocent lives at stake, malevolence and distrust all around, and forbidden desire simmering between them, the steamy atmosphere surrounding Kerry and Linc has little to do with the jungle they must penetrate. Struggling against all odds to stay alive, they discover that their real challenge is to fight the devil within.

Afraid of a cute little dolly, are you? Well, you should be...

Shocking, banned and the subject of obscenity trials, Henry Miller's first novel *Tropic of Cancer* is one of the most scandalous and influential books of the twentieth century. *Tropic of Cancer* redefined the novel. Set in Paris in the 1930s, it features a starving American writer who lives a bohemian life among prostitutes, pimps, and artists. Banned in the US and the UK for more than thirty years because it was considered pornographic, *Tropic of Cancer* continued to be distributed in France and smuggled into other countries. When it was first published in the US in 1961, it led to more than 60 obscenity trials until a historic ruling by the Supreme Court defined it as a work of literature. Long hailed as a truly liberating book, daring and uncompromising, *Tropic of Cancer* is a cornerstone of modern literature that asks us to reconsider everything we know about art, freedom, and morality. 'At last an unprintable book that is fit to read' Ezra Pound 'A momentous event in the history of modern writing' Samuel Beckett 'The book that forever changed the way American literature would be written' Erica Jong Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the *Rosy Crucifixion* trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

This tale of a family in Little Italy is "a minor miracle . . . documenting the madness and the grace of God in everyday life" (*Newsweek*). On a 1950s September night so hot that the devout Catholics of Little Italy wonder if New York City has slipped into hell, the butcher Joseph Santangelo invites his friends to play pinochle. At the end of a long, sweaty, boozy evening, his friend Lino Falconetti, addled by wine and heat, bets the hand of his daughter, Catherine—and Santangelo wins. Santangelo's modern new wife clashes immediately with his superstitious, fiercely protective mother. But years later, it is Catherine who is horrified when the daughter they raise turns out to have more in common with the old world than the new. From a *New York Times*–bestselling author, this story of two generations of an Italian-American family is imaginative, evocative, funny, and warm—and was made into an acclaimed film directed by Nancy Savoca, starring Tracey Ullman, Vincent D'Onofrio, and Lili Taylor.

Rhosmari trembled as the Empress walked over to her. 'Oh, do not struggle. There is nowhere for you to escape,' the Empress said, her voice silken and sweet. Then she unsheathed a small dagger from her waist. 'This will only hurt a little...' Rhosmari has lived her whole life on a sheltered chain of faery islands. But with the Empress's power growing, and her desire to enslave the entire faery race becoming a reality, Rhosmari knows she must fight back...

****NEW YORK TIMES & USATODAY Bestselling Series**** There's optimistic. And there's Jesse Walker. If he wasn't so charming, his sunny disposition and incessant grin would get old.

Fast. Falling in love with the broken girl who had at first seemed immune to anything resembling love was the best thing to happen to Jesse since the Walkers adopted him when he was five. As Jesse's life continues at the ranch and Rowen begins making her mark in the Seattle art community, they wonder where the middle ground is. Or if there even is one. As push comes to shove, they're forced to make choices neither are eager to make, and Jesse and Rowen have to face what their lives might look like without the other. Can two people with such tragic pasts and different presents expect a promising future together? Whatever the answer, they'll need a lot more than love to make it. *Recommended for mature readers due to moderate content and language.*
