Reveal the vast, unseen relationship between matter and energy that's all around us with Just the Facts: Physical Science! Students discover the states of matter, the laws that govern the physical world, and much more through challenging, yet fun activities. This book contains over 100 cross-curricular lessons, word searches, data analysis, crossword puzzles, and more. Supports NSE standards.

Activities for students help them explore states of matter.

Physical Science for grades 5 to 12 is designed to aid in the review and practice of physical science topics. Physical Science covers topics such as scientific measurement, force and energy, matter, atoms and elements, magnetism, and electricity. The book includes realistic diagrams and engaging activities to support practice in all areas of physical science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Science made easy. In this fabulous resource, students examine materials in the world around them and become aware of a wide variety of similarities and differences in the properties of those materials — for example, the way they would look, feel, sound or change. Specifically, they investigate liquid and solid materials, learning that some materials exist in both the solid and liquid state. Major topics include: What Is Matter And Is Not, Molecules, The Three States of Matter, Solids and Liquids: Similarities and Differences, Changing From One State of Matter To Another, Interactions of Some Solids and Liquids, Solids That Float In Water, Solids That Absorb Liquids, and Applications To Daily Life. This Physical Science lesson provides a teacher and student section with a variety of reading passages, lessons, activities, crossword, and word search to create a well-rounded lesson plan.

Series of books for class 1 to 8 for ICSE schools. The main goal that this series aspires to accomplish is to help students understand difficult scientific concepts in a simple manner and in an easy language.

Crossword puzzles encourage students in grades three through six to recall facts provided in informational passages on each of the fifty United States.

The New Inquisitive Science is a series of eight books for Classes 1 to 8 that conforms to the vision of the National Curriculum Framework. The series has been written with a child-centric approach that arouses curiosity in children and helps to develop analytical and reasoning skills in them.
